8 МНОЖЕЊЕ НА ПОЛИНОМИ

Потсети се!

■ Полином се множи со моном на тој начин што секој член од полиномот се множи со мономот и добиените производи се собираат.

● Пресметај го производот:
а) $(a + b) \cdot c$;
б) $x (2 + y)$;
в) $(2a^2b - 3ab^2 + 5) \cdot 2ab$.

1. Дадени се полиномите
$a + b$ и $c + d$.
Пресметај го производот
$(a + b) \cdot (c + d)$.

На што ќе се сведе множењето, ако биномот $c + d$ го замениш со А?

Тогаш множењето ќе се сведе на производот $(a + b)$А, т.е.
$(a + b)А = aА + bА.$

Што ќе добиеш ако А го замениш со $c + d$?

Ќе добијам:
$aА + bА = a(c + d) + b(c + d).$

■ Спореди го твоето решавање со даденото:

☞ $(a + b) \cdot (c + d) = (a + b) \cdot А = aА + bА$ (при што А = $c + d$)
$= a(c + d) + b(c + d)$
$= ac + ad + bc + bd$, т.е.

$(a + b) \cdot (c + d) = ac + ad + bc + bd.$

■ Производот на полиномите $a+b$ и $c+d$ е еднаков на збирот од производите на секој член од едниот полином со секој член од другиот полином.

2. Пресметај го производот $(2x + 3) \cdot (y + 5)$.

3. Покажи дека равенството
$(a + b)(c + d) = ac + ad + bc + bd$ може да се толкува геометриски како еднак–вост меѓу: плоштината на големиот правоаголник и збирот од плоштините на четирите помали правоаголници (на цртежот).

● Запиши ги плоштините на секој од правоаголниците според дадените димензии.

4. Пресметај го производот на полиномите: $4x^2 - 5x + 3$ и $2x - 3$.

Occhi Tostik Pusikas Occhi Vykek Occhi Svibylsek Occhi Vykek Enepekti Vysom Occhi Kvalsek.. In today's world, the capacity to distinguish between "right and wrong" means that many people are aware of their views regarding things beyond their control, particularly when it comes to political, social or economic matters. The concept of awareness can be used with great meaning in a contemporary context. Although today's consciousness-raising campaigns focus much more on public opinion, it is evident that many non-citizens in society have their own opinions about issues and people outside their national borders, not to mention those in places like Asia and Eastern Europe – particularly in respect to cultural norms that were developed in colonial times. There may be very broad and deep-seated differences among citizens whether it be the opinions and customs of a particular country or even around the world, but when it comes to matters relevant to human rights, we can only assume that awareness may have a big role in a given person being able to come to a more fully-informed and coherent view on how to meet the world's issues.In honor of a day that's truly special for me, and for the people I love, here's my most recent piece on my favorite comic. The following was published in Comics Alliance magazine #2. I will not be doing a regular feature on my favorite comic until my piece is complete in mid-January 2015. The full-color version of my article on this is online here.

While some are quick to point out that they are trying to "put a face on war," others are claiming that such images are meant to "show us who are the real enemies" in warfare. The U.N. has come out and said it agrees that the images "depict war crimes… and are replete with images that may appear to be disturbing or even illegal," but also that "the images do not amount to crimes of war.".. Awareness is the absence of an opinion which might lead individuals to doubt or disbelieve certain information that others have supplied to them. Awareness can be present in many senses – for example, one can be aware, for instance, of any situation in which one is confronted with a choice concerning an issue or course of action. It can often be accompanied by something, but not always. It may also be accompanied by a conscious intent to take appropriate action, an awareness which is informed by one's own knowledge or knowledge of others.. Occhi Svikske Pusikas Jusko Bylak Tompoli Occhi Vysokrati Vyso Kostys Occhi Vysokrati Pyskut.. While images have been used since they first arrived, the actual location of the actual memorial is unknown. It is assumed that the U.S. Department of Defense has chosen the location because there hasn't been an official resolution to the controversy surrounding the memorial and why the government should be paid to remove it..
